Saturday Morning will be focused on the Sustainability merit badge.

What is sustainability in the simplest terms? “Sustainability is more of a new way of thinking as opposed to the science in the Environmental Science merit badge,” Berger says. “The idea is not just to conserve but to truly be stewards of our environment, our energy sources, and more—to think in terms not just of having enough for our lifetime but enough for future generations.”

Pre-requisite of requirement 1: Before starting work on any other requirements for this merit badge, write in your own words the meaning of sustainability. Explain how you think conservation and stewardship of our natural resources relate to sustainability. Have a family meeting, and ask family members to write down what they think sustainability means. Be sure to take notes. You will need this information again for requirement 5.
Unit Elections

Unit Elections are an important activity the Lodge undertakes every year. In order to have new members we must take the time to contact the Troops in the Council and hold and election for eligible Scouts. Troops have from now until March 31st to complete their election and have results turned into the council office. For the Lodge to work towards Journey to Excellence, each election needs to be completed by a trained election team. Training is going to be offered at the Winter Banquet and is also offered at Chapter meetings.

If you would like to play an important role in the Order of the Arrow, sign up to be a part of your Chapter’s Unit Elections team. An excited Arrowman can have a large impact on the Lodge by helping to make sure every Troop in the Council is able to have an election. Elections can be scheduled by making arrangements through your Chapter Chief or Adviser. If your unit still needs to have an election contact your Chapter or talk to your Troop OA representative to make sure that the eligible Scouts in your Troop can get elected. Remember someone had to take the time to make sure you were elected, how many Scouts can you have the same effect on?
